# STEEL & ALUMINUM UTILITY BODIES **BUILT TO LAST**

**Wilcox Utility Bodies** are designed and built for rugged performance in a demanding environment. When using high-powered aerial devices body strength is essential. Our steel and aluminum utility bodies are built not only to meet these demands but far exceed them.

## UTILITY BODIES

TOLL-FREE  
**1-888-294-5269**

## UTILITY BODIES FOR EVERY INDUSTRY

Wilcox Utility Bodies are designed specifically for chassis from 84" CA to 135" CA Tandem rear wheels. When using high-powered aerial devices body strength is essential, that is why we mount our bodies on 4" Stubs utilizing the aerials subframe.
